TO ITS PRODUCTIONSinclair Company Purchases Production of
C. J. Wrightsman

Some weeks ago the Sinclair Oil & Gas Co. purchased the interest of J. B. Foster in the El Dorado (Okla.) field. Yesterday the same company closed a deal with C. J. Wrightsman to take over the balance of the Adams 160 acres in 21-28-2. This gives the Sinclair company entire control of this property with a daily production of about 2,000 barrels. It is the second field taken by the Sinclair company. There are no wells on the property most of which are in the Cushing field. The remainder is in Wrightsman's 25-25-6.

In addition the Sinclair company purchased the Hecklers 40 acres in 36-18-2 from Mr. Wrightsman. This property has 140 barrels with a production of 200 barrels a day. A well is being drilled now and will be completed. There are no wells on the property most of which are in the Cushing field. The remainder is in Wrightsman's 25-25-6.

Independent oil companies are moving their rigs for No. 4 well on the Stephens farm in 21-21-1.

Reese, Brauer and Green are moving in a rig on their location in the southeast quarter of 3-24-15. This is a location from an oil well in section 10 and looks set for a well. J. W. Snyder is the contractor. Also the McDowell Oil company of Oklahoma City has contracted with Mr. Snyder to drill at once on their house in 21-21-1.

The well drilled by Simpson, Foster and others was reported a wild and then condemned. We do not know

at this writing what it is. It is on the Johnson farm in 18-22-16.

In W. ex. Nixon and Porter well No. 4 there was found at 400 feet a sand 15 feet thick with some gas and considerable showing of oil. This is the farthest well west on the lease and looks like another one west of this would be an oil well. This well is in the southwest quarter of 21-21-15.

AT PONCA CITY.

The Kay & Kiowa Oil & Gas Co. has a rig up for a test in the northeast of the northeast of 13-26-26.

The Oklahoma Kansas Oil company test in the northeast of the northwest of 14-26-26 had 4,000,000 test of gas at 510 feet and is now drilling a tank farm. It is understood that the Magnolia will take over the Magnolia pipe line about the first of the year.

The northeast of 26-26-19 is shut down on top of a sand at 1,850 feet.

The Mo-Kan Oil company has made a location for a test in the southwest corner of 42-34-9.

McMAN SELLS OIL.

The McMan oil company has just completed the sale of 100 barrels of Cushing oil to the Magnolia Petroleum company in the Cushing field. No price was announced but it is certain to be a good premium above the posted market.

The Magnolia is rapidly becoming very active in this section of the state, building a pipe line from the Cushing field north to Yale, where it is building a tank farm. It is understood that the Magnolia will take over the Magnolia pipe line about the first of the year.
